Day 2: Boston – Thousands Islands (Summer)/Secret Caverns (Winter)

(Summer Schedule: Start when Thousand Islands cruise resumes.) In the morning, we head to **Thousand Islands** (U.S. Side) where we will take a Cruise Tour on St. Lawrence River. As the name indicated, the Thousand Islands constitute an archipelago of 1864 islands that straddles the Canada- US. Passengers on boat tours can learn the history of the region, which was once home to pirates and bootleggers, and enjoy views of some famous spots along the way, such as the mysterious Deer Island and the famous Boldt Castle mansion on Heart Island.

(Winter Schedule: Start when Thousand Islands cruise closes.) Thousand Islands cruise closed for the season during winter schedule, this tour will go to **Secret Caverns** instead. Many of the caverns in this area were formed largely during the last Ice Age, about 38000 – 14000 years ago. “For thousands of years mineral laden water has been precipitating on the walls, ceiling, and floor of the caverns, leaving behind great deposits of golden calcite. When these deposits hang from the ceiling like icicles, they are called stalactites. When they build up from the floor, they are called stalagmites. And when you see calcite dripping down over the walls or covering the rocks, that is called flowstone.” —You will have a wonderful time with all the views mentioned!

Day 3: Niagara Falls (Full day)

In the morning, we will cross the Upstate New York and arrive in Niagara Falls, NY. It's the combination of height and volume that makes Niagara Falls so beautiful. More than 6 million cubic ft. (168,000 cubic meters) of water goes over the crest line of the falls every minute during peak daytime tourist hours.

Take the voyage on the famous “**Maid of the Mist**” which gets passengers as close as possible to the Niagara Falls! The Maid rides right into the mists thrown up by the roaring cascade as the Niagara River tumbles over the edge of the falls. (Maid of the Mist will close in winter and may be replaced by Jet Boat if time and weather allows.) You will also watch a **Thundering Water Cultural Show** which is a sacred place for the local Native

American people. This show uses dance as a storytelling medium through which to showcase the impact that the falls have had on native culture. (*When the cultural show is not available, you can optionally watch a Niagara IMAX movie, which chronicles more than 12,000 years of history and examines human interaction with the falls from ancient time through the people - like you - who come to see them today.) Afterwards, you can choose to take **Niagara Falls In-depth Tour**. This interesting and exciting tour includes two popular attractions: the magnificent natural wonder - Niagara Whirlpool State Park and the U.S. historic landmark - Old Fort Niagara. (Tour fee: \$25/person, including \$13 of the admission ticket.)The Niagara Whirlpool's greatest depth is 125 feet. It is estimated the whirlpool formed approximately 4,200 years ago by the upstream erosion of the Niagara escarpment by Niagara River. Old Fort Niagara is a rich historic landmark; it spans more than 300 years. Its commanding presence on the great lake caused it to play a critical role in the French and Indian War, the American Revolution and the War of 1812. The gorgeous Lake Ontario lies behind the Fort. Later in the night, the **nighttime illumination** of the impressive American and Horseshoe falls will have visitors experience the falls in a new way. (The completeness of night view on certain summer evenings may be limited or not available due to late sunset time and US Federal Government regulations on driving hours.)

(*We will visit Watkins Glen only when weather condition allows.) (**Note: There is an extra charge of \$10/person for bus admission and parking in the Watkins Glen State Park.)
