Itinerary

Day 1 New York- Secret Caverns -Niagara Fall

Guests will be picked up in New Jersey and New York in the early morning. We will head north to the Secret Caverns in upstate New York, and then continue on to Niagara Falls, NY where we will see Thundering Water Cultural Show.

Secret Caverns- Discovered by a farmer after his cattle wandered into the entrance to cool down, the Secret Caverns are a kitschy and odd alternative to the nearby larger enterprise, Howe Caverns. A 103-step staircase is the only way in or out.

Niagara Fall Niagara Falls Illumination For more than 75 years, visitors to Niagara Falls have been able to enjoy a nighttime illumination of the impressive American and Horseshoe falls. Every night of the year at dusk, visitors can experience the falls a new way. The completeness of night view on certain summer evenings may be limited or not available due to late sunset time and US Federal Government regulations on driving hours.

Thundering Water Cultural Show, like many impressive wonders of nature, is a sacred place for the local Native American people. This show uses dance as a storytelling medium through which to showcase the impact that the falls have had on native culture.

Day 2 Niagara Falls- Corning -Washington DC

We will continue to explore Niagara Falls, NY, where we will get on the observation desk to have a closer **Day View** to the thundering water falls. Niagara Falls **In-Depth Tour** – This interesting and exciting tour is including two popular attractions such as the magnificent natural wonder- Niagara Whirlpool and the U.S. historic landmark – Old Fort Niagara. The Niagara Whirlpool’s greatest depth is 125 feet. It is estimated the whirlpool formed approximately 4,200 years ago by the upstream erosion of the Niagara escarpment by Niagara River. Old Fort Niagara is a rich historic landmark; it spans more than 300 years. Its commanding presence on the great lake caused it to play a critical role in the French and Indian War, the American Revolution and the War of 1812. The gorgeous Lake Ontario lay behind the Fort. Catch "Niagara: Legends of Adventure," a dramatic 45minute **IMAX Movie** on the new 45X25foot screen.

When weather condition and time arrangement is permissible, we will also take the **Niagara Jet Boat** to skim above the swift waters of the Niagara River Gorge, followed by swirling torrent of the legendary Niagara Gorge, with the hair-raising 360-degree spins for which the jet boats are specifically designed.

After lunch, we are heading to **Corning Glass Museum** - in western New York-which is dedicated to the history, art, and science behind glassmaking. Its collection contains more than 45,000 objects, some of which date back millennia. It was founded in 1951 and sees 400,000 visitors annually.

If time permits, we will be visiting the **Madame Tussands** in Washington D.C., the only attraction you can get close to the “44 presidents” of US.

We will then travel to Philadelphia, PA to see the Liberty Bell and Independence Hall in National Independence Park. We will return to New York in the late evening.

Independence Hall in Independence National Historical Park is the location where both the Declaration of Independence and the United States Constitution were debated, written, and ratified by the Founding Fathers of the USA.
